CERTIFIED BY INEOS *Certified vehicle protection*

INEOS vehicles are never chosen by accident. It is selected by drivers who know what they want: purpose-built capability, timeless utility and a different kind of luxury. Certified By INEOS (CBI) adds confidence to that choice by pairing INEOS certification with one additional year of factory warranty coverage on eligible pre-owned Grenadier vehicles.

For extended protection beyond our Certified By INEOS program, ask your F&I Manager about Certified by INEOS Plus coverages.

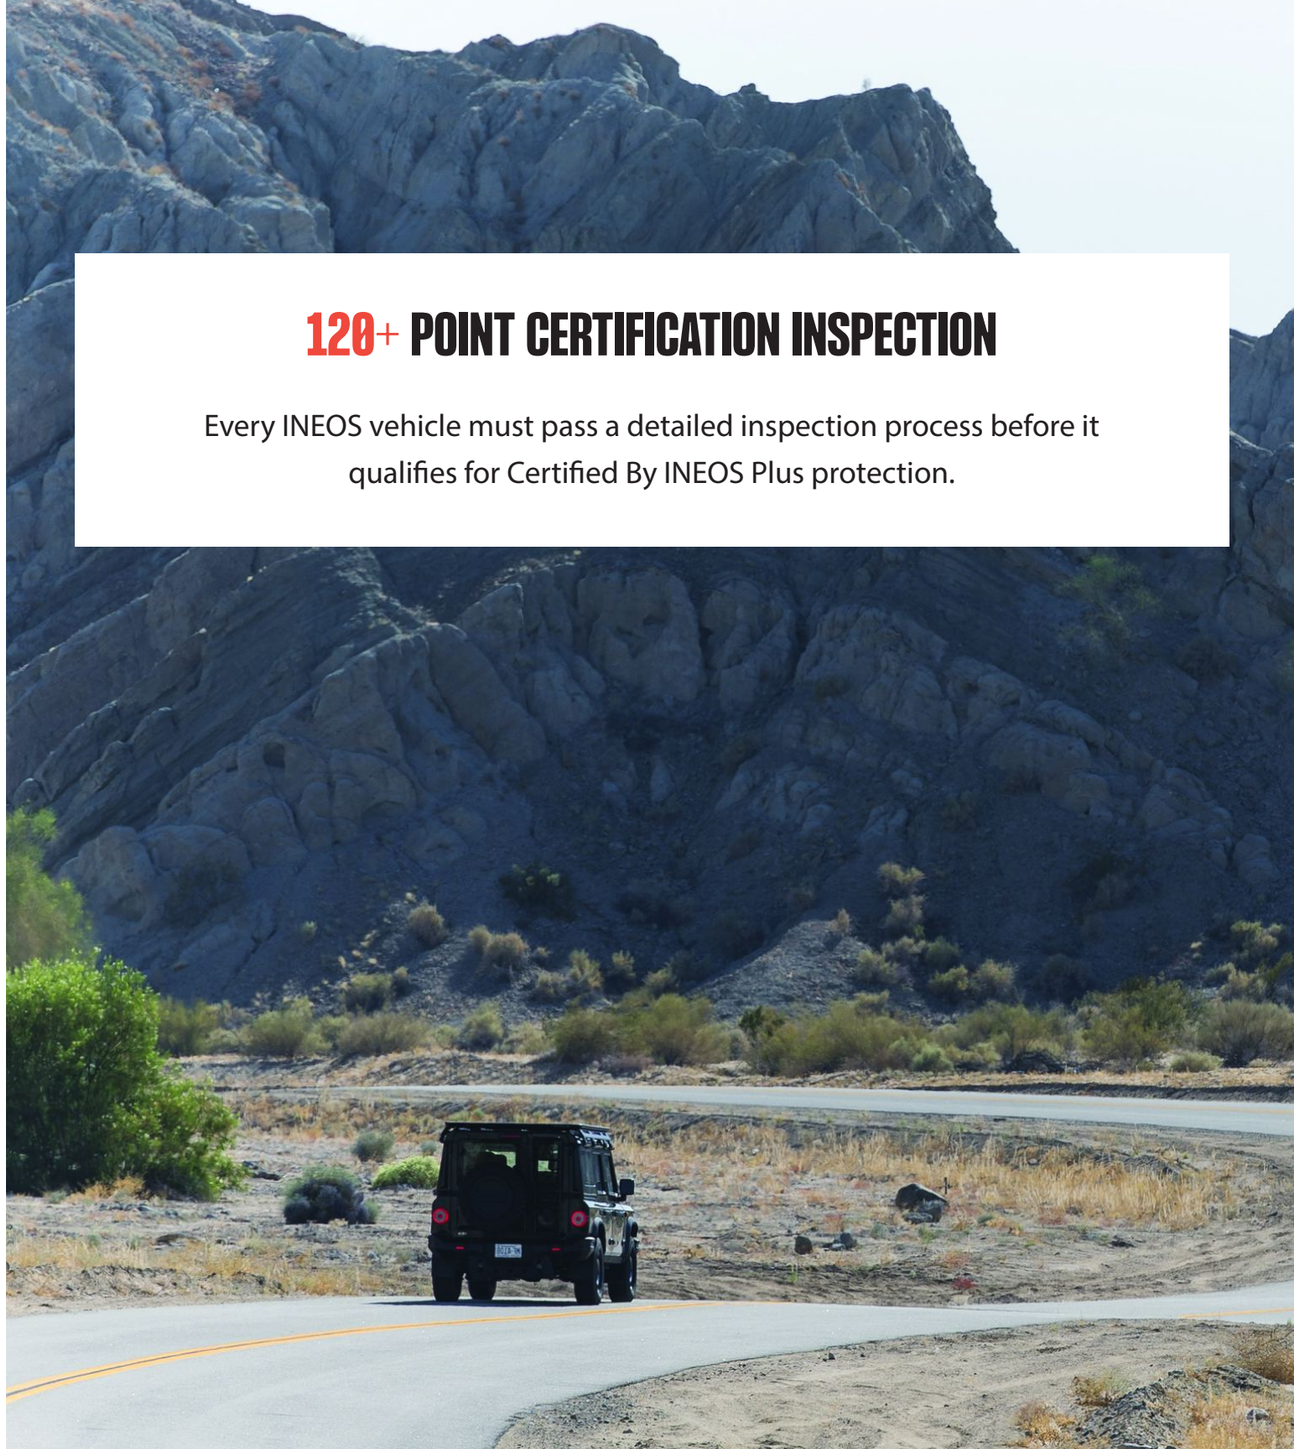

Certified For the Grenadier Buyer

Before an eligible pre-owned Grenadier can qualify for Certified By INEOS coverage, it must complete a detailed Certified by INEOS inspection. This process is designed to review the vehicle's condition, confirm eligibility and ensure required repairs or adjustments have been addressed before delivery. From drivetrain and suspension to brakes, electrical systems, interior condition, exterior finish and road test performance, the inspection helps verify that the vehicle is ready for its next owner.

Added Coverage for Added Confidence

Certified By INEOS extends factory warranty coverage from 5 years to 6 years on eligible Certified by INEOS vehicles. That added year gives you more confidence in the Grenadier you already knew you wanted. For drivers who want even more long-term protection and ownership benefits, ask your F&I Manager about the Certified By INEOS Plus protection.

**Programs vary by lender/dealer and state. Refer to your Certified By INEOS Contract for all terms and conditions.*
