Exterior & Interior Protection

Cilajet® helps protect your vehicle inside and out with durable, professional-grade protection designed to preserve its appearance. On the exterior, Cilajet® bonds with your vehicle's paint at the micron level to create a deep, mirror-like gloss while helping protect against UV rays, acid rain, bird droppings, industrial fallout, bugs, tree sap, mud, grime and other surface contaminants. Inside the vehicle, Cilajet® helps guard seats, door panels, dashboards, fabric and carpet against water and oil-based stains, including food and drink spills, while helping prevent UV fading. Its interior protectants are hypoallergenic, 0% VOC and designed to maintain the original look and feel of leather, vinyl, fabric and carpet.
